A CONCENTRATE OF TECHNOLOGY FOR HIGH-LEVEL PERFORMANCE

Touch-Display
COMPLETE CONTROL, INTUITIVE USE

Dentist's console

The dentist's console ensures total comfort and ease of movement thanks to smooth movements and reduced dimensions. The handpieces in the top delivery version lay on an autoclavable silicone mat, whereas in the hanging hoses version, they are placed in removable and autoclavable instrument housings.

INNOVATIVE, INTUITIVE AND FUNCTIONAL, it guarantees optimal function management thanks to the countless customization possibilities. The large 7" glass color screen simplifies the adjustment of all parameters and movements, thus optimizing operating times and safety.

Assistant's console

The assistant's console offers super easy handling thanks to its design with clear lines and ergonomic handle. It is installed on a double-jointed arm; it is resistant and it features a capacitive touch display. The console is predisposed for two surgical suction cannulas and two additional instruments.

COMPLETE CONTROL, INTUITIVE USE

SETTINGS

This menu allows you to set customized parameters for up to 5 users and to set timers for different functions.

COUNTDOWN

This menu allows you to set a countdown timer.

SCALER

This dedicated menu allows you to:

- operate using the Endo, Scaling or Perio mode;
- manage the peristaltic pump flow;
- activate the proportional mode.

RESTORATIVE - ENDO - SURGERY

The basic version of the MCX Bien Air micromotor features conservative and endodontic functions. The surgical module including the MX2 Bien Air micromotor and peristaltic pump can perform surgical, endodontic and conservative treatments.

The MX2 has an adjustable torque that goes from 0,3 Ncm up to more than 70 Ncm according to the chosen handpiece. The cruise control function, exclusively customized for Miglionico, allows you to operate without keeping your foot on the foot control lever.

MDS / MDS+ SYSTEMS

Systems for the decontamination of hydro circuits with the WK liquid by Metasys.

MDS, the system continuously mixes the WK liquid with mains water or water coming from the bottle, preventing the formation of limescale and biofilm with consequent reduction of bacterial load. Moreover, it contributes to the correct functioning of the spray function of the instruments.

MDS+, this system can be activated from the dentist's control panel. After positioning the handpieces inside the dedicated autoclavable housing, you can start the intensive disinfection cycle from the control panel. If the intensive disinfection cycle is not selected, the MDS+ system will work with the same basic mode as the MDS system.

Hygiene

Inside the hydro case, it is possible to install:

ASB SYSTEM

2 Lt bottle for the independent water supply to the instruments of the dentist's console. A bypass valve allows you to select the water type between mains water or water supplied by the bottle.

REMOVABLE AND AUTOCLAVABLE DENTIST'S CONSOLE HANDLE

SURGICAL SUCTION FILTERS FOR EACH HOSE

REMOVABLE AND STERILIZABLE CUSPIDOR

In-built suction systems

CUSPIDOR DRAIN VALVE

AMALGAM SEPARATOR

AIR/WATER SEPARATOR

Standard predisposition for wet suction systems. Availability of in-built systems into the dental unit in case of dry suction systems and of devices to comply with the law in force on the amalgam disposal.

NT ambidextrous version

Surgery version with cart

Chair

The chair is designed to offer comfort and good working ergonomics. It is covered in skai medical leather for easy sanitization. The synchronized movement of the backrest and the seat ensures optimal and prevents the sliding effect. The anatomic backrest, with lumbar support, is available in 2 versions: standard for all working ergonomics and wide in memory foam for surgery or greater comfort of the patient, ideal for long-lasting treatments.

STANDARD BACKREST

XL MEMORY FOAM BACKREST

Adjustable backrest

As an option, the backrest with motorized vertical excursion is also available, which can be managed from the control panel to ensure the correct positioning of the patient's head on the headrest, whether **pediatric** or **adult**.

Foot controls

The foot control is solid and well-balanced with a steel base to ensure stability while working. It is equipped with a retractable handle which makes it easy to move. It is available in the standard or push version, both with cable or wireless.
